

MAXIMIZE ROLL ACCURACY & UNLOCK VALUE

Use Linebarger's Homestead Exemption Analysis

Linebarger's Homestead Exemption Analysis program increases the accuracy of your rolls, while minimizing your team's workload. Since 2012, HEA has identified thousands of erroneous homesteads for Texas appraisal districts. We handle everything from identifying accounts to contacting taxpayers. Our proprietary software and processes ensure we identify discrepancies more effectively and efficiently than our competitors.

Full Service, Superior Data

Ensuring the accuracy of your homestead exemptions is our top goal. We work with TransUnion, using TLOxp® for rigorous identity, address, and asset verification. Each homestead is checked for multiple exemptions, deceased owners, or non-residence. We investigate and verify every case.

Why Linebarger

- ✓ Turnkey Service
- ✓ MAP Compliance
- ✓ Letters/Notices
- ✓ Legal Expertise
- ✓ CAMA Integration
- ✓ Detailed Reporting

Value-Added Services

High Quality Data

We use TransUnion, a premier provider of identity and asset verification.

ROI, No Hidden Fees

Our process pays for itself many times over. Clear pricing and no hidden fees.

Thorough Data Verification

Our data verification process yields actionable data from reputable sources.

Effective & Focused

We focused exclusively on invalid homestead exemptions.

Ongoing Support and Compliance

Our program includes two-year cleanup and ongoing maintenance.

Proven Success

We've added billions to property tax rolls and recovered millions in revenue for clients.
